Introducing ABE: A Global Specialist in Business Education

ABE Global is an internationally reputed exam board at the forefront of developing business education since its inception in 1973. We are a not-for-profit and aim to empower people to transform their lives and communities by gaining high-quality business, leadership, and entrepreneurial skills. We provide qualifications, degree pathways, bespoke capacity-building programmes, and quality assurance services that give educators a choice of face-to-face, digital delivery, or blended learning. We also produce leading-edge research and policy recommendations that support the communities we serve by helping to shape and strengthen education systems and creating the best conditions for businesses to flourish.

Products & Services

ABE offers business education designed to impact lives from school to boardrooms.

Qualifications

ABE offers Ofqual regulated Diplomas in Business Management, Human Resources and Marketing, from Level 4 to Level 6 (bachelor's degree level). These qualifications develop the most dynamic and up-to-date skill set on the market, and they can be topped up to a degree, such as the BA (Hons) in Business Administration delivered online through our exclusive partnership with the University of Hertfordshire. In addition to our 120 credit Diplomas, we offer a fantastic range of short course qualifications which develop skills in employability and entrepreneurship at Level 2 and Level 3 (A level).

Quality Assurance

We offer quality assurance through our ABE Endorsed label. This service is for training or centre-devised programmes. ABE Endorsed shows that a course has been independently verified as being of a high standard, meeting the needs of participants and having robust quality assurance. Learners on the programme will receive an ABE Endorsed certificate, which means they can prove their learning to prospective employers, giving it greater value in the marketplace.

Rob May
Chief Executive Officer
ABE Global

School Programmes

Our offer for schools focuses on 'Young Aspiring Entrepreneurs and Leaders'. Our goal is to engage children from the age of 11 to adopt an entrepreneurial and curious mindset, awakened to the possibilities that business, leadership and entrepreneurial studies can open up.

ABE Endorsed KidsMBA allows schools to enhance their curriculum and help younger pupils (from age eleven) develop an entrepreneurial and business-savvy mindset. Research has shown that introducing entrepreneurial education at a younger age provides many benefits. Not only does this help students become more employable and learn how to adapt and identify opportunities - an invaluable life skill that supports wider economic growth.
